

Industrial lighting
V-Spring® telescoping safety light pole

CROUSE-HINDS
SERIES

Increase safety
and decrease
labor costs

EAT•N

Powering Business Worldwide

Designed for safety.

Whether it's a new installation or a replacement project, lighting maintenance tasks can be dangerous, labor intensive and costly.

Make your job safer, faster and easier with V-Spring telescoping light poles.

The new, patent-pending V-Spring telescoping light pole from Eaton's Crouse-Hinds increases safety and decreases labor costs associated with lighting installation and routine maintenance.

Its innovative design allows for all work to safely take place on the platform or walkway, eliminating the need for portable ladders and fall protection equipment.

Application

- For luminaires installed on industrial walkways, platforms, stairways and conveyors where OSHA/HSE regulations require fall prevention equipment
- Hard to reach or dangerous areas where safety is a big concern
- Hazardous and harsh environments subject to corrosive agents, vibration and extreme temperatures

Install and maintain light fixtures without leaving the ground.

Product specifications

Construction

- Telescoping
- Factory sealed and pre-wired

Installed height

- Adjustable raised height

Certifications

- UL1598
- CSA C22.2 No. 250.0-08
- cULus listed for Class I, Division 2, Class II, Division 2 when used with Champ® series luminaires

Environmental ratings

- Dusttight
- NEMA 4, IP66
- Wind rated to 230 mph per AASHTO standards

Vibration

- DNV No. 2.4: 2006
- IEC 60068-2-6: 2007

Materials

Light pole options

- Structural steel: A36-500
- Hot dip galvanized: ASTM 123
- Aluminum: T6061
- Stainless steel: 316 grade

Compression spring

- Stainless steel

Hardware

- Xylan 1400 coated for corrosion protection

Cable

- 12/3 AWG UL/CSA Listed
- 600V, -40°C to 105°C
- Sun- and oil-resistant, FT1, FT2
- ROHS II Reach

Weather cover

- 60 Duro high UV-resistant EPDM

Weights

- Handrail stanchion and wall models:
 - Structural steel: 42 lbs.
 - Aluminum: 23 lbs.
- Base/structural model:
 - Structural steel: 70 lbs.
 - Aluminum: 34 lbs.

Maximum luminaire weight

- 50 lbs. (recommended weight for one person operation)

Safety by design

Maintaining lighting in industrial facilities is often a complex and costly task, as the majority of the fixtures are in dangerous and difficult to reach locations. For lights in elevated locations, OSHA/HSE regulations require fall prevention equipment any time a worker is exposed to a fall of six feet or greater.

While personal protection equipment will help protect workers from threat, there is still a risk of injury from a fall. Preventing the worker from being exposed to the threat altogether is the most effective risk-reduction measure.

Transition from protecting the worker to **eliminating the risk.**

All work takes place on the ground

- Spring assistance allows the luminaire to be lowered safely and easily – **eliminating the need for portable ladders and fall prevention equipment.**

Vertical travel reduces force and stress

- When compared to 45 degree lowering systems, the V-Spring's spring assisted vertical movement requires **65% less force to raise or lower and removes mechanical stress on the handrail by over 300%.**

Luminaire housing will not fall

- The vertical travel of the V-Spring allows the luminaire housing to properly hang from the mounting module hinge during installation and maintenance. **No risk of dropped or falling ballasts.**

No pinch points

- The V-Spring locking collar has no rotating parts during operation, **protecting hands and fingers from injury.**

#1 The most frequently cited OSHA violation is fall protection

34% of worker deaths on construction sites are from falls

The only pole replacement solution listed for classified and hazardous locations.

Replacement made easy

If you are looking to upgrade your facility's lighting technology, use the V-Spring telescoping pole as a labor-saving installation tool. With our pole removal tool, the V-Spring can easily replace existing lighting systems, allowing you to quickly and safely install your new luminaires from the ground.

Replacement labor costs can be reduced by 30-50% with this approach, as the high cost of working at heights is avoided.

As an added benefit, the V-Spring will deliver additional labor savings from ongoing inspection and maintenance of the luminaire throughout its life cycle!

Complete pole replacement ensures structural integrity!

Ordering information

Part number example
V65H-G-JM5-LTEE2

V-Spring telescoping light pole, galvanized, handrail mount, assembled with angled stanchion top hat and iron tee

Labor savings options
Minimum order quantity: 10 pieces

V65

Series

V65	V-Spring telescoping light pole
-----	---------------------------------

H

Mounting

B	Base
W	Wall
H	Handrail stanchion

G

Material

G	Galvanized steel
A	Aluminum
S	316 stainless steel

Harsh environment cover

BLANK	No cover
C	Installed cover for locking collar

Top hat*

JM5	25° angled top hat
PM5	Straight top hat

- JM5 - LTEE2

Lighting tee*

LTEE2	Lighting Tee with 3/4" feed thru hubs and 1 1/2" vertical hub, Feraloy iron
LTEE2 SA	Lighting Tee with 3/4" feed thru hubs and 1 1/2" vertical hub, copper free aluminum
LTEE3	Lighting Tee with 1" feed thru hubs and 1 1/2" vertical hub, Feraloy iron
LTEE3 SA	Lighting Tee with 1" feed thru hubs and 1 1/2" vertical hub, copper free aluminum

Mounting kits must be ordered separately.
See table below for options.

Handrail mounting kits

MHK-RTG	Tubular rail, galvanized
MHK-RTS	Tubular rail, stainless
MHK-RAG	Angled rail, galvanized
MHK-RAS	Angled rail, stainless
MHK-RIG	Incline rail, galvanized
MHK-RIS	Incline rail, stainless

*For Champ series luminaires only

Accessories (ordered separately)

EC65	Harsh environment cover for locking collar
LMB-FR240-PC	2 ft. (610 mm) fluorescent clamp-on
LMB-FR440-PC	4 ft. (1200 mm) fluorescent clamp-on
LMB-FRT40-PC	3 ft. (920 mm) fluorescent clamp-on, cross arm
LMB-WP40-PC	Multi-purpose, bolt-on, vertical
LMB-MP40-PC	Multi-purpose, bolt-on, horizontal
LMB-FL40-PC	Floodlight bolt-on
JBP-G-PC	Junction box plate

*Contact factory for additional labor saving options

Contact factory for aluminum or stainless options.

Installation options

Inclined rail mount

Universal rail mount - tubular rail

Universal rail mount - angular

Bolt-on (weld-less) brackets provided as a complete kit

Base mount

Column/wall mount

NOTE:

All mounting hardware for base and wall are included with pole.

Wall mount bracket included (MHK-WG)
