

Flat-Top Boxes

CASTERS NOT INCLUDED

- Flat-top design provides more storage capacity for tall, bulky items, plus a large work surface for jobsite plans.
- Gas springs allow easy opening and closing.
- Double-hinged cover folds up out of the way.
- Dual recessed and concealed lock protectors provide maximum security against drilling and cutting locks.
- Features three reinforced steel shelves on Models 4848 and 4860 and two shelves on Model 3360, all with large lip to prevent items from rolling off.
- Channel reinforcements on lid, lock side panels into lid for added security when closed.
- Large fold-down recessed handles for convenient lifting.
- Optional casters are available separately for easy mobility.

Storage Boxes

For storage and security think of Greenlee storage boxes first. Welded 16 gauge steel construction with overlapping corners, rolled edges and strategically placed reinforcement make these boxes strong and rigid. Most models feature patented recessed and concealed dual lock protectors which protect locks from tampering and weather. All models feature continuous non-removable pin hinges to deter theft.

Overlapping rolled edge lids and doors help keep the contents safe and secure. Built-in skids with holes for mounting optional casters allows for easy moving both on casters or with material handling equipment. The boxes are then finished inside and out with a durable baked enamel finish.

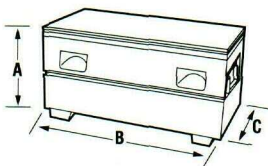

Small Storage Boxes

- Protects small tools and supplies. Single lock hasp for use with padlock.
- Compact side handles for easy portability.
- Heavy-duty hinges plus chain connector to hold lid in open position.

Cat. No.	UPC No.	Capacity		Dimensions			Weight	
				A	B	C		
		ft ³	m ³	in. (mm)	in. (mm)	in. (mm)	lbs.	kg
