Conduit Bending Levels

Features

- 3.5 in. and 6 in. levels feature an integral Thumb Winder™ conduit wheel with a contoured screw designed for non-slip grip and stability that prevents doglegs in complex conduit bends
- Entire chassis is CNC machined from 6061 T6 aluminum billet for straightness
- Corrosion resistant brass screw for easy vial replacement instead of plastic or glued caps
- Oversized neodymium rare earth magnets provide the highest magnetic field strength and stability

Models

Description	Part No.
3.5 in. Precision Level	35-206
6 in. Precision Level	35-207
9 in. Precision Level	35-208
