# KWIK CYCLE®

The Greenlee professional KWIK CYCLE® crimping systems consist of two crimp tool platforms with over 40 interchangeable crimping dies! Manually crimp to factory specifications coaxial connectors, modular plug connectors, insulated and non-insulated terminals, open barrel contacts and fiber optic connectors.

- The KWIK CYCLE® crimp tool frames are manufactured from heat treated, hardened tool steel for superior life and function.
- KWIK CYCLE® tools feature a precision full cycle ratchet for accurate, repeatable crimps every cycle.

- KWIK CYCLE® tools feature a crimp release lever which helps to improve your throughput by eliminating rejected terminations due to improper connector positioning.
- Crimping dies are manufactured from hardened, heat-treated tool steel for superior life.
- Crimping dies are easily interchangeable for quick changes on the job site or production line.
- KWIK CYCLE® frames feature a tension adjustment preset at the factory for optimum performance.

## KWIK CYCLE® 9

The KWIK CYCLE® 9 crimp tool features a higher leverage force and ergonomically designed handle for improved comfort. It's tough and durable which makes the KWIK CYCLE® 9 perfectly suited for the field installation of connectors as well as the shop. All KWIK CYCLE® 9 die sets are easily interchangeable with a simple screwdriver.

Description	Cat./UPC No.
9" Crimp Frame	45504

## KWIK CYCLE® 8

The KWIK CYCLE® 8 features a smaller handle spread with a comfortable, ergonomically designed handle. This tool frame is very popular for the higher production environment and for the hard to handle smaller connectors such as fiber optic connectors and open barrel contacts. All KWIK CYCLE® 8 crimping die sets are easily interchangeable with a simple screwdriver.
