## 25T6.5N-130V-IF - 130 volt, 25 watt, T6.5 Bulb, E17 Intermediate Bulb

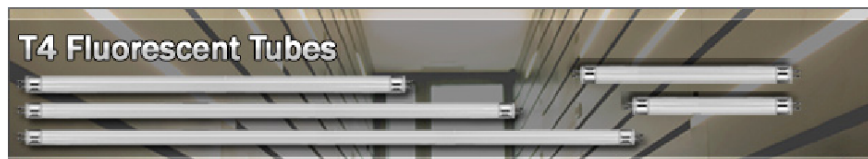

[Enlarge Image](#)

Voltage:	130V
Wattage:	25W
Amps:	0.20
Type:	T6.5 Light Bulb
Life Hours:	4,000 Hours
Base Type:	E17 (Intermediate Screw Base)
Frosted Glass	

Our Halogen Energy Reduction Series reduces energy consumption by 20% with equal light output compared to standard halogen bulbs. If you're looking for energy saving at the lowest possible investment cost. Our [MR16](#) and 2-pin halogen energy saving line is the right choice.

All T4 fluorescent tube sizes are in-stock from 8" to 45", 6 watt to 28 watt. 3 color temperature's to choice from, Warm White (2700K), Cool White (4100K), and Day Light (6400K). T4 Fluorescent Tubes are becoming the most popular choice in replacing larger fluorescent lights.
