S1SP3IM -- SystemOne Sub-Plate, Hubbell INFINeSTATION™

Hubbell SystemOne is an innovative system that provides consumers with the flexibility to create personal solutions for the most demanding multi-service applications for both flush in-floor boxes and fire-rated poke-throughs. Hubbell SystemOne features a unique universal cover assembly and a wide variety of application sub-plates that install on both Hubbell flush floor boxes and fire-rated poke-throughs. Whatever the application, Hubbell SystemOne delivers a consistent, aesthetic and functional solution for applications "in-the-floor" or "through-the-floor" for power, voice, data, and A/V requirements.

SystemOne Features

- Hubbell SystemOne was designed to give specifiers and contractors the flexibility to create their own application specific combinations.
- This modular solution utilizes application sub-plates that install into ONE universal cover for Hubbell SystemOne Floor Boxes and Poke-Throughs.
- While no one can predict the future, Hubbell's modular sub-plate design allows users to economically upgrade Hubbell SystemOne Poke-Throughs and Floor Boxes to accommodate future moves, adds and changes.
