

## PRODUCT FEATURES

- High visible green color rods can be easily seen when working above ceilings, down walls, or under raised floors.
- 1/4" diameter fiberglass rods provide added rigidity when multiple sections are connected.
- 200 lbs minimum pulling strength for long lasting durability and peace of mind.
- Two different threaded tips available to accommodate various bundles of wire or cable.

## SPECIFICATIONS

### 540-12

Total Length: 12' (3.6 m)

(3) 4' (1.2 mm) sections

Weight: 1.04 lbs. (.5 kg)

Material: 1/4" (6.4 mm) dia. fiberglass rod

### 540-24

Total Length: 24' (7.3 m)

(3) 6' (1.8 mm) and (2) 3' (.9 m) sections

Weight: 1.94 lbs. (.9 kg)

Material: 1/4" (6.4 mm) dia. fiberglass rod

## Installation of Voice-Data-Video systems made EASY

The EZ Reach™ Stix are manufactured from fiberglass rods which are non-conductive and will easily fasten together – making installation of wire over long distances (such as above ceilings, through insulated walls or under carpeting and raised floors) easy and safe.

The bright green fiberglass stix can be easily seen where lighting may be limited. The “J” style hook can be easily threaded onto one end of the stix for faster installation of wire in suspended ceilings or raised floors.

Going through insulated walls or under carpeting? Not a problem with the Greenlee “bullet nose” tip. The bullet nose tip eliminates the rods from getting hung up on carpeting or typical insulation found in walls, making installation of wire fast and simple.

Flexibility at its best. The Greenlee EZ Reach™ Stix are available in two lengths, 12' and 24', to create various working lengths for any type of installation run.
