

Siemens Low Voltage Low Voltage Distribution Dry-Type Transformers. 3-Phase transformer. Primary voltage: (480V), secondary voltage: (208Y/120) six taps 2.5pct (2 FCAN and 4 FCBN). Rated (075kVA). Special features: K-Factor 13, aluminum windings, 150 DEG C temp rise with 220 insulation class, meets DOE 2016 energy efficiency standards.
