

Crimping Dies

Greenlee now offers an expanded line of 6-ton and 12-ton crimping dies. The new dies that have been added are for use with service entrance connectors, C-taps, H-taps, and a variety of overhead and underground connectors. These new dies are in addition to the existing dies for use with color-coded lugs and splices. All of the dies are marked with the Greenlee catalog number, and when applicable, the equivalent Burndy designation. When selecting dies, always refer to the connector manufacturer's product information for the connector to be installed.

"U" Style Dies for Lugs and Splices

- Use with EK1230, HK1230, RK1230, EK1240, HK1240 and RK1240 crimping tools.
