HOLE DOZER™ BI-METAL HOLE SAWS

OVERVIEW

The MILWAUKEE® HOLE DOZER™ Bi-Metal Hole Saw features RIP GUARD™ teeth, built with more steel for added strength. These teeth give increased productivity on the job site as well as better hole quality, and are backed by the RIP GUARD™ Limited Lifetime Tooth Break Warranty. Each HOLE DOZER™ is coated with a low friction, Thermoseal paint coating that provides faster cutting speed in wood and more holes cut per battery charge. The HOLE DOZER™ comes with an All Access Slot design that allows for full access during plug removal. The All Access Slots enable access lower into the cup for thick material and higher toward the teeth for thin material, eliminating wasted downtime between holes.

FEATURES

- RIP GUARD™ Limited Lifetime Tooth Break Warranty
- Thermoseal Coating: Delivers up to 2X faster cuts in wood
- All Access Slot design for fast plug removal
