

Enclosure Heating and Cooling Services

THERMAL AUDITS

REQUEST A FREE NVENT - HOFFMAN THERMAL AUDIT TODAY!

What is a Hoffman Thermal Audit?

A thermal audit is a FREE service that Hoffman reps and distributors provide, which includes:

Enclosure Inspection

A Hoffman specialist will identify and inspect every enclosure and cooling unit in your facility as well as analyze the environment.

Thermal Analysis

The specialist will then take an in-depth look inside your enclosures to identify problematic electronics and components.

Recommendations

Finally, after an audit is conducted a personalized report will be provided or all the enclosures with solution recommendations.

How does a Hoffman Thermal Audit Work?

A thermal audit quickly identifies problem areas and offers compelling evidence of excess heat that can affect performance and potentially damage your critical equipment. We will then recommend Hoffman thermal management solutions to help you minimize downtime and reduce maintenance costs.

Benefits of a Hoffman Thermal Audit

Extend operational life

Prevent catastrophic failure

Sustain productivity

Maintain equipment warranties

Contact your local Kirby Risk Salesperson to request a free thermal audit today!
